What Is Data Science Course ?

Data science involves developing methods of recording, storing, and analyzing data to effectively extract useful information. The goal of data science is to gain insights and knowledge from any type of data — both structured and unstructured. To be more precise, it is the study of data stored by the business.

Data Science is all about mining hidden insights of data of trends, behavior, interpretation and inferences to enable informed decisions to get the best outcomes for your business. This gives us a clear understanding of Data Science.

Now, the person who performs these activities is said to be a Data Scientist. Data Science is the most high-in-demand job in the 21st century as per Glass door.

UV Technocrats offers **Data Science course in Pune**, the most advanced Data Science course in Pune, which covers the complete Data Science lifecycle concepts from Data Collection, Data Extraction, Data Cleansing, Data Exploration, Data Transformation, Feature Engineering, Data Integration, Data Mining, building Prediction models, Data Visualization and deploying the solution to the customer.

Skills and tools ranging from Statistical Analysis, Text Mining, Regression Modelling, Hypothesis Testing, Predictive Analytics, Machine Learning, Deep Learning, Neural Networks, Natural Language Processing, Predictive Modelling, R Studio, Tableau, Spark, Hadoop, programming languages like R programming, Python are covered extensively as part of this Data Science course.

UV Technocrats is one of the **best Data Science training institute in Pune** which offers services from training to placement as part of the Data Science training program. **We understand, Before doing a course or choosing a career path a lot of questions arise in your mind. As a part of the reputed IT training institute in Pune, we analyze some common question arises in your mind. UV Technocrats have tried to give you answers to some of your questions.**

Data Science Course In Pune

Why UV Technocrats For Data Science Training In Pune?

If you are looking for career in Data science, then you are at the right place. UV Technocrats is considered to be one of the best Data Science training institutes in Pune.

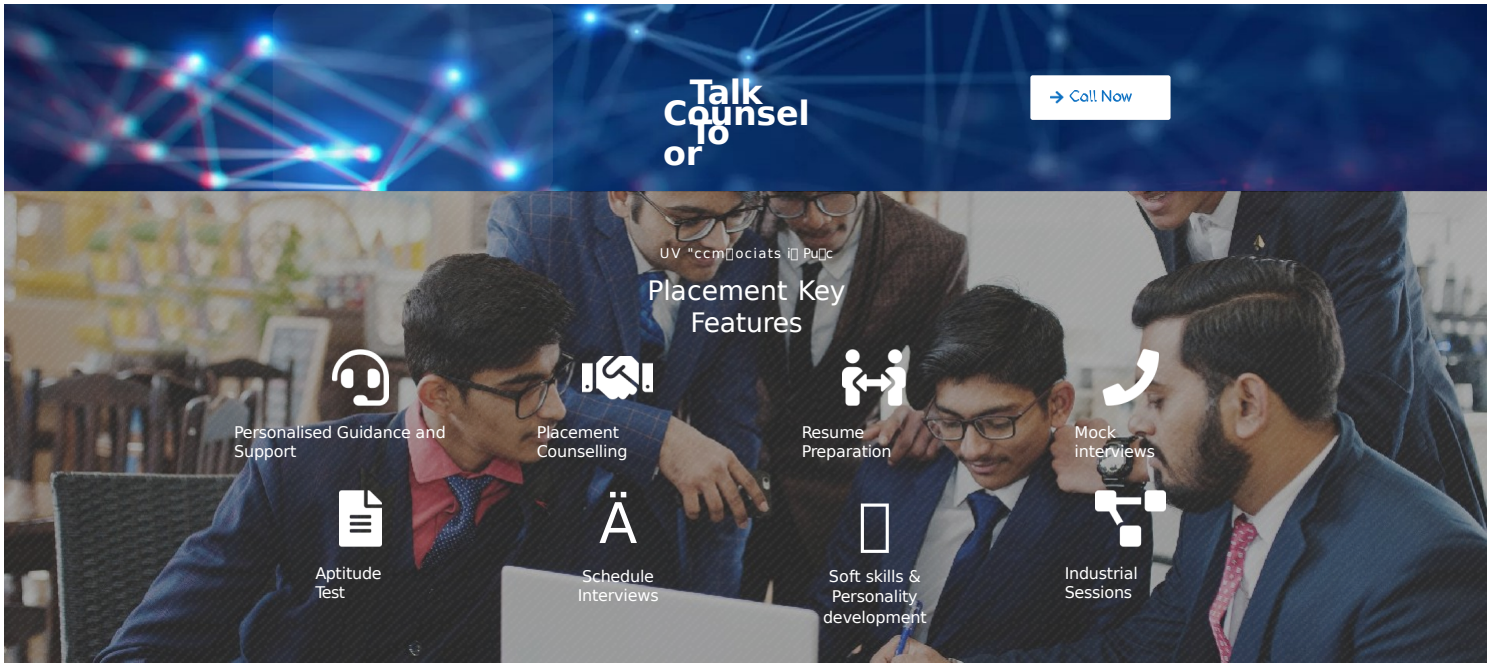
UV Technocrats has a dedicated placement cell and is one of the oldest Training Institute in Pune for IT Professionals as well as students. We provide our training facilities at three different places in Pune so that you can learn at your convenience. In the era of Digitalization, tons of data are generated on daily basis. This boost up the demand for the Data Science professionals who can evaluate and extract meaningful insights and hence creating millions of jobs in terms of Data Science.

In market, there is a huge difference between the demand and supply of these professions and therefore it is creating a large number of job opportunities. Data science, is also said to be the highest paid job in IT industry. The Data Scientist career is one of the most rewarding career paths.

More than 1.5 Lakh jobs are vacant in Data Science, Artificial Intelligence and Big Data roles according to NASSCOM. The world will notice a deficit of more than 2+ Lakh Data Science professionals by 2022. In India, the Demand for Data Scientist professionals has increased by 417% in the year 2018, as per the Talent Supply Index.

According to Harvard Business Review 'Data Scientist is the always in demand job of the 21st century'. UV Technocrats provides Classroom as well as **online training for Data Science Course**. We have the highest number of placed student after doing a course from our institute.

Skills & Technologies Covered in Data Science Course



Eligibility For Data Science Certification Courses

- Professional from any domain who has logical, mathematical and analytical skills
- Statisticians, Economists, Mathematicians
- Software programmers
- Professionals working on Business intelligence, Data Warehousing and reporting tools
- Business analysts
- Six Sigma consultants
- Fresher from any stream with good Analytical and logical skills

Proficiency After Training

- Ability to handle, clean, and process complex datasets.
- Competence in building and deploying machine learning models.
- Proficiency in Python for data science applications.
- Expertise in data visualization and reporting techniques.
- Capability to apply statistical methods for real-world data analysis.
- Strong problem-solving and analytical thinking skills.

Job Profiles After the Data Science Certification Course from UV Technocrats

1. Data Scientist
2. Machine Learning Engineer
3. Data Analyst
4. Business Intelligence Analyst
5. Data Engineer
6. Data Consultant
7. AI/ML Specialist
